Through this partnership, Kathy covenants to

- email your church contact person at least once a month with updates about the ministries you are making possible at the Camphor Mission Station.
- You will be able to follow our ministry adventures on line with our web site and blog and be directly connected to the work that you are a part of in Liberia!
- Kathy will come and be a part of your church community when she is in Ohio each year. She will tell the story, share photos, and stay very connected to you her partner in ministry.

Here is how it will work

Danny and Kathy are planning on returning to Liberia in September of 2009 and staying in country at the Camphor Mission Station for about 10 months. Danny, an Emergency Room physician, needs to stay current in the medical field in North America. They will be coming home to northeast Ohio so that he can return to work for 3-4 months while Kathy itinerates and shares the mission story with YOU her partner congregations. Kathy will be a hands on missionary with churches in the East Ohio Conference. UMVIM trips are already being planned to Liberia.

Future work in Sierra Leone to continue the work of GBGM missionary Beth Ferrell . . .

As we build relationships in Liberia in West Africa, we hope to continue the East Ohio connection to a clinic in Manjama, Sierra Leone where our very own Beth Ferrell worked as a nurse. Stayed tuned for more details on how this work is progressing.
