

JOB POSTING

SUMMER WORKER FUNDED BY DISTRICT GRANT 2018

The main goal of the worker would be to organize and carry out a ministry to elementary age children and their families. The target students would be from kindergarten to sixth grades. The sessions should include a Bible lesson and games for the kids. It may also include something educational that is not religious like nature lessons and crafts. The sessions may include lunch if a sponsor can be found.

An additional activity would be to organize an event on one of the major holidays in a park for the children and their families. That event may be coordinated with Hearts on Fire. Participation in the Block Party and Tent Meeting is expected.

Our funding should support 300 to 350 hours.
