All persons may take these lay servant training courses for spiritual development, even if you do not intend to serve as a lay servant. Taking a lay servant class does not obligate you to speak publically. You may enroll in courses offered in any district or in the online training at www.beadisciple.com. Class participants are not required to take the BASIC course prior to other classes, but persons new to lay servant ministries are strongly encouraged to take the BASIC course first.

The BASIC course is required for persons wishing to be recognized as “lay servants.”
